

# Proper Use and Disposal of Needles and Syringes

## Be Smart. Be Careful. Be Aware. Be Safe.

If you're one of the many people in Massachusetts who use syringes to manage your health care at home, here's what you need to know about the safe use and disposal of needles, syringes and lancets (sharps).

### Be Smart. Use a Sharps Container.

A sharps container is a single-use container that is filled with used medical needles and then disposed of safely. These can be purchased at medical supply stores or even ordered through the mail.

**DO NOT** put sharps containers in the garbage or with recyclables.

**DO** visit a medical supply store to purchase sharps containers.

**DO** call the AIDS Action Committee Pharmacy Access Hotline to find out more about personal sharps containers. 1-800-988-5209

**DO** check out these sharps mail back services. All provide a variety of container sizes and prepaid mailing cartons:

- **Medasend** 1-800-200-3581
- **Sharps Compliance** 1-800-772-5657
- **Sharps, Inc.** 1-877-633.7328
- **Stericycle** 1-800-355-8773

### Be Careful.

Protect yourself, your community, your environment, and family and friends.

The proper disposal of needles and syringes is important!

**DO** put used syringes in sharps container immediately.

**DO** keep needles away from children and pets.

**DO** bring a sharps container when traveling.

**DO NOT** throw used syringes in the garbage.

**DO NOT** flush used syringes down the toilet or drop into storm drains.

**DO NOT** clip, bend or recap needles.

**DO NOT** throw used sharps in a recycling bin.

### Be Aware.

Needles, syringes and sharps containers may not be thrown in household trash or recycling bins. These items must be disposed of at a drop off site or through a medical mail back service.

### Be Safe.

Reduce your risk of blood-borne diseases like hepatitis and HIV/AIDS.

**DO** use a new needle every time you inject.

**DO** clean the injection site with soapy water, alcohol swabs or rubbing alcohol.

**DO** find out your HIV/viral hepatitis status. Get tested. If you are not infected you can stay that way. If you are, find out how to take care of yourself and avoid passing HIV/viral hepatitis to others.

**DO** clean your sharps with bleach IF you must reuse them.

**DO NOT** inject in the same spot over and over again.

**DO NOT** share needles, syringes, cookers, cotton or water.

### Be Informed.

Resources are just a phone call away. All calls are confidential.

#### • **AIDS Action Committee Hotline**

**1-800-235-2331**

#### • **AIDS Action Committee Pharmacy Access Hotline**

**1-800-988-5209**
